

Picotest CD Readme

This CD-ROM is set up to run automatically when it is placed in your CD drive. If for some reason the CD-ROM does not start automatically, open the CD-ROM from My Computer and double-click on the AutorunPro.exe program file. This should launch the program.

This CD-ROM also has a folder with several documents including product brochures, product manuals, software and the **FREE** 302 page **Measuring Power Application Notebook, Volume 1 (A \$125 Value)**.

The directory structure is below and each document is linked in this file.
