

## NORTEL MAGELLAN

Welcome to the Inform '96 CD, the on-line library of plenaries and workshops presented at Nortel Multimedia Networks' annual customer conference held in April 1996.

At Nortel Multimedia Networks, we continually search for new and innovative methods to provide customers with high-quality product information. One solution is the Inform CD, which brings you information on Magellan solutions in a CD-ROM format.

With a CD-ROM drive connected to your computer, you can use Adobe Acrobat Reader<sup>™</sup>. This application uses power search and display tools to help you navigate quickly and easily to the documents, sections, keywords, and graphics you want.

You can use this CD on Macintosh, PC, and UNIX systems, as the viewing applications for all three are on the same disc.

This document is linked with hypertext links to all other documents on this CD. To access a document, just click your mouse on the color-highlighted name.

This CD contains the following folders:

"2INSTALL" contains the required software for <u>Windows</u> , <u>Macintosh</u> , and <u>UNIX</u> platforms.

"3INFORM":

<u>**1SYNOPSI.PDF**</u> contains synopses of the plenaries and workshops presented at Inform '96. This document also contains all the hypertext links to the workshops and plenaries. Any of the presentations can be accessed via this document by clicking on the color-highlighted name.

The information contained in this CD is subject to Northern Telecom Limited copyright regulations. Materials and concepts presented here are solely for information purposes of Nortel Magellan customers invited to attend Inform '96...

"4PRESEN" is the folder that contains the Inform '96 plenary and workshop presentations.

"5SLIDEON" is a folder containing the Inform '96 presentations in a slides-only format. This enables you to use the presentations as a slide show.

If you have finished reading this document, please proceed to the <u>1SYNOPSI.PDF</u> document.
