ZigBee™ Members to Demo Wireless Solutions in San Jose, California

Alliance Announces Quarterly Open House, Launches Refreshed Website

San Ramon, Calif. — The ZigBee Alliance announced it will hold live demonstrations, showcasing the ZigBee wireless standard for reliable, low-power applications, during its quarterly Open House next month. Manufacturers, integrators, analysts, and media are invited to attend the ZigBee Open House, which will be held from 1:00 p.m. to 6:00 p.m. November 19, 2003, at the Hilton San Jose & Towers in San Jose, California. The free event will feature a moderated panel comprised of leading industry analysts from In-Stat; West Technology Research Solutions, LLC; Harbor Research; Wireless Data Research Group; and Focal Point Group.

The quarterly Open House will include a ZigBee Alliance overview by Bob Heile, ZigBee Alliance Chair; ZigBee Working Group updates by group chairs; and presentations by member companies highlighting their ZigBee-related product development plans. Hosted by Ember Corporation, the Open House will also include an evening reception following the formal sessions.

Online registration for the Open House is now available on the ZigBee Alliance's recently re-launched website, www.zigbee.org. The redesigned site includes information about ZigBee's initial markets, an updated "Resources" section, and a list of events at which you can speak to Alliance members about ZigBee technology.

About the ZigBee Alliance

ZigBee: Wireless Control That Simply Works

The ZigBee Alliance is an association of companies working together to enable reliable, cost-effective, low-power, wirelessly networked, monitoring and control products based on an open global standard. The ZigBee Alliance is a rapidly growing, non-profit industry consortium of leading semiconductor manufacturers, technology providers, OEMs, and end-users worldwide. Membership is open to all. Additional information can be found at www.zigbee.org.
