**Networking Comes Home (9/25/01) Issue (41) NEW!**

*by Robert Bielby, Senior Director, Strategic Solutions, Xilinx Inc.*

A silent revolution is happening -- the revolution of home networking. And while this revolution should give us no cause for concern, it does, however, [more...](#)

**View from the top The Future of Platform FPGAs (7/1/01) Issue 40**

*by Wim Roelandts, CEO Xilinx*

A look at the Xilinx philosophy behind the Virtex family development. The Virtex FPGA family is, without a doubt, the most advanced programmable logic solution [more...](#)

**Discontinuity at the Gate -- A New Era in FPGA Design (7/1/01) Issue 40**

*by Walden C. Rhines, Chairman and CEO, Mentor Graphics Corporation*

The Xilinx vision in programmable logic will change how you do digital design. Mentor Graphics has recognized this and is committed [more...](#)

**Xilinx XtremeDSP Initiative Meets the Demand for Extreme Performance and Flexibility (7/1/01) Issue 40**

*by Rufino T. Olay, III, Sr. DSP Product Marketing Engineer, Xilinx Inc.*

An FPGA DSP solution boosts performance while conserving board space for demanding wireless, networking, and video applications. The rapid convergence of broadband communications [more...](#)
